PCTEL Introduces WCDMA/GSM CLARIFY System

Simultaneous Collection of GSM and WCDMA Propagation and Interference Data Meets Operator Requirements for Technology Co-Existence and Transition

CANNES, France, Feb 14, 2005 (BUSINESS WIRE) -- PCTEL, Inc. (NASDAQ:PCTI), a global leader in simplifying mobility, announced today the introduction of a Tri-Band CLARIFY(TM) solution that supports both WCDMA and GSM. PCTEL will demonstrate the CLARIFY WCDMA/GSM solution at the 3GSM World Congress in Cannes, France, February 14-17 (Booth E25 in Hall 2).

With its high dynamic range and ability to identify and locate interference sources, CLARIFY sets the industry standard for interference management in cellular networks. Dual mode capability will enable operators to manage WCDMA/GSM networks and optimize performance without additional infrastructure investment. CLARIFY simplifies technically difficult network problems without requiring network interruption, off-hours driving, the use of CW transmitters or employing other expensive methods. It is essential to cell and frequency planning.

"We are pleased to be able to respond to the many customer requests for CLARIFY WCDMA by announcing the addition of WCDMA to our successful CLARIFY product line," says Larry Swift, General Manager of PCTEL's RF Solutions Group. "This new solution will be invaluable to operators as they plan and launch their WCDMA networks and manage complex RF issues like co-siting, interference and inter-network handoff."

The CLARIFY product line includes a collection and analysis system that can export critical data to industry tools used in propagation management, frequency and cell planning applications. The product is available globally.

About PCTEL

PCTEL (NASDAQ:PCTI), founded in March 1994, is a global leader in simplifying mobility. PCTEL's Mobility Solution Group's (<http://mobilitysolutions.pctel.com>) software tools provide secure, access independent, remote connectivity. PCTEL's RF Solution Group's (<http://rfsolutions.pctel.com>) portfolio of OEM receivers and receiver-based products are used to measure and monitor cellular networks. PCTEL's Antenna Products Group (<http://antenna.pctel.com>) designs, distributes, and supports innovative antenna solutions that facilitate and simplify wireless communications. PCTEL protects its leadership position with a portfolio of more than 130 analog and broadband communications and wireless patents, issued or pending, including key and essential patents for modem technology. PCTEL's products are sold or licensed to wireless carriers, wireless ISPs, distributors, wireless test and measurement companies, system integrators, PC manufacturers and PC card and board manufacturers. PCTEL headquarters are located at 8725 West Higgins Road, Suite 400, Chicago, IL 60631. Telephone: 773-243-3000. For more information, please visit our web site at: <http://www.pctel.com>.

SAFE HARBOR

This press release contains forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Specifically, these forward looking statements include, but are not limited to, statements regarding the potential benefits resulting from the use of PCTEL, RF Solutions Group new Tri-Band Clarify solutions that supports both WCDMA and GSM. These statements are based on PCTEL's current expectations and anticipated marketing benefits and actual results may differ materially from those projected as a result of certain risks and uncertainties, including, but not limited to, the success at marketing, selling and supporting this product; whether such product achieves market acceptance; the ability to forecast customer requirements; competition from other providers; and pricing uncertainties. These risks and uncertainties and others that relate to PCTEL's business, including but not limited to those detailed from time to time in PCTEL's Securities and Exchange Commission filings, can affect actual results. These forward-looking statements are made only as of the date hereof, and PCTEL disclaims any obligation to update or revise the information contained in any forward-looking statements, whether as a result of new information, future events or otherwise.
