

PCTEL Automates Reporting for 5G, LTE and Public Safety Network Testing

July 28, 2020

BLOOMINGDALE, Ill.--(BUSINESS WIRE)--Jul. 28, 2020-- PCTEL, Inc. (Nasdaq: PCTI), a leading global provider of wireless technology, announced a new automated reporting feature for its [SeeHawk® Collect network testing software](#). SeeHawk Collect makes it easy to collect and analyze data from PCTEL® scanning receivers, including accurate field measurements of coverage and signal quality for 5G, LTE, 2G/3G cellular, WiFi, public safety, and private radio networks.

"SeeHawk Collect reports will make 5G network deployment and optimization easier for users of PCTEL scanning receivers worldwide," said Rishi Bharadwaj, PCTEL's Chief Operating Officer. "We are excited to build on the success of our public safety network testing solution and meet growing customer demand for a similar reporting feature for traditional cellular drive and walk testing," added Bharadwaj.

SeeHawk Collect users can generate printable reports with a single click within minutes of completing a drive, saving hours or even days of work post-processing and compiling data. The reports present a summary of the drive or walk test campaign, with network measurements and KPIs (Key Performance Indicators) displayed on easy-to-read maps and charts.

[Meet with PCTEL online August 24-27 at IWCE Virtual](#) to learn more about SeeHawk Collect software, along with PCTEL's full portfolio of test and measurement, antenna, and industrial IoT solutions.
