

PCTEL Introduces New 5G Permanent Mount Combination Antenna for Industrial IoT

January 6, 2022

BLOOMINGDALE, Ill.--(BUSINESS WIRE)--Jan. 6, 2022-- PCTEL, Inc. (Nasdaq: PCTI), a leading global provider of wireless technology, today introduced its new 5G low-profile antenna platform for industrial IoT applications.

The new Medallion™ II antenna platform has been designed to PCTEL's high quality and performance standards. With its optimized multiband capabilities, the antennas are ideal for cabinet mount industrial IoT applications. Due to its low-profile form factor, the Medallion II platform is recommended for permanent mount installations with limited overhead clearance. The antennas include two 5G FR1 ready ports, an optional dual band 2.4/5 GHz port for WiFi coverage and GNSS compatibility covering global systems.

"Industrial IoT systems are very complex and require networks that provide reliable and seamless wireless connectivity for data transmission. Our new Medallion II antenna platform incorporates best-in-class technologies, and it has been engineered to address the challenges of industrial IoT systems worldwide," said Rishi Bharadwaj, PCTEL's Chief Operating Officer.
