

PCTEL Announces Multimillion Dollar 5G Scanning Receiver Orders from Leading Network Testing Solution Providers

July 18, 2022

BLOOMINGDALE, Ill.--(BUSINESS WIRE)--Jul. 18, 2022-- PCTEL, Inc. (Nasdaq: PCTI), a leading global provider of wireless technology solutions, announced multimillion dollar orders of 5G scanning receivers from two of its largest network testing solution OEM customers. The orders include *Gflex*® and *HBflex*™ scanning receivers, and will be delivered by the end of 2022.

“We are grateful to our customers and thrilled with the growing demand for PCTEL test and measurement solutions from network operators and regulators around the world,” said Arnt Arvik, PCTEL’s Vice President and Chief Sales Officer. “These orders are clear evidence that the market recognizes the unique value of our flagship *Gflex* scanning receiver as a compact, future-proof solution that can keep up with the rapid growth and evolution of 5G networks.”

The *Gflex* scanning receiver was designed specifically to meet the complex demands of multi-carrier 5G network testing across multiple sub-8 GHz and mmWave bands in a single lightweight, portable unit. It is the first purpose-built walk and drive test scanner to support every 5G band as currently defined in the 3GPP release 17, and the first capable of measuring the full bandwidth of a 100 MHz 5G channel.

PCTEL scanning receivers support a wide variety of cellular and public safety network testing applications, including network planning, deployment, optimization, troubleshooting, interference hunting, and benchmarking for both in-building and outdoor networks.

About PCTEL

PCTEL is a leading global provider of wireless technology solutions, including purpose-built [Industrial IoT devices](#), [antenna systems](#), and [test and measurement products](#). Trusted by our customers for over 25 years, we solve complex wireless challenges to help organizations stay connected, transform, and grow.
