PCTEL Posts \$20.3 Million in Third Quarter Revenue

Achieves \$.03 GAAP Earnings

CHICAGO, Oct 24, 2007 (BUSINESS WIRE) -- PCTEL, Inc. (NASDAQ:PCTI), a leader in wireless broadband solutions, announced results for the third quarter ended September 30, 2007. Financial highlights of the quarter were:

- -- \$20.3 million in revenue for the quarter compared to \$20.5 million in the same quarter last year and 19.0 million in the prior quarter.
- -- \$17.4 million in revenue for the quarter from the Broadband Technology Group, compared to \$17.8 million in the same quarter last year, but up from \$16.2 million in the prior quarter. Gross profit improved to 45 percent, compared to 41 percent in the third quarter of last year. Gross profit improved in both the scanning receiver and antenna product lines.
- -- \$2.7 million in revenue for the quarter from the Mobility Solutions Group, compared to \$2.4 million in the same quarter last year and \$2.5 million in the prior quarter.
- -- \$0.2 million in licensing revenue for the guarter, compared to \$0.4 million in the third guarter last year.
- -- GAAP net income of \$0.6 million for the quarter, or \$0.03 per diluted share, compared to a net loss of \$(20.7) million, or \$(0.99) per basic share for the same period in 2006. The third quarter last year included \$21.5 million of asset impairment and restructuring charges related to the closing of the Dublin antenna factory.
- -- Non-GAAP net income of \$2.4 million for the quarter, or \$0.11 per diluted share compared to net income of \$2.6 million, or \$0.12 per diluted share for the same period in 2006. The Company's reporting of non-GAAP income excludes expenses for restructuring, stock based compensation, amortization and impairment of intangible assets and goodwill related to the Company's acquisitions, and non cash goodwill related income tax expense.
- -- \$65.9 million of cash and short-term investments at September 30, 2007, as compared to \$68.6 million at the end of the second quarter 2007. The company repurchased 517,000 shares in the quarter for \$4.1 million under its share repurchase plan. The shares were purchased at an average price of \$7.84.

"We are beginning to see some positive results from our investment in distribution, our cost management in different areas of the business, and the organic development of new product lines," said Marty Singer, PCTEL's Chairman and CEO. "We see continued growth in the three major markets that we serve: WiMAX Networks, Private Networks, including both public safety and the enterprise, and Cellular Carrier markets. In each of these markets, we are able to offer propagation, optimization, and connection management solutions," added Singer.

PCTEL's management team will discuss the company's results during its scheduled earnings teleconference today at 6:15 PM EDT.

- (a) These adjustments reconcile the company's GAAP results of operations to its non-GAAP results of operations. The company believes that presentation of results excluding items such as noncash compensation expense, amortization of intangible assets, restructuring charges, and non-cash income tax expense provides meaningful supplemental information to both management and investors that is indicative of the company's core operating results and facilitates comparison of operating results across reporting periods. The company uses these non-GAAP measures when evaluating its financial results as well as for internal planning and forecasting purposes. These non-GAAP measures should not be viewed as a substitute for the company's GAAP results.
- (b) This adjustment reflects the non-cash stock based compensation expense for restricted grants, stock bonuses, and stock options awarded to the company's employees.

- (a) These adjustments reconcile the company's GAAP results of operations to its non-GAAP results of operations. The company believes that presentation of results excluding items such as non-cash compensation expense, amortization of intangible assets, restructuring charges, and non-cash income tax expense provides meaningful supplemental information to both management and investors that is indicative of the company's core operating results and facilitates comparison of operating results across reporting periods. The company uses these non-GAAP measures when evaluating its financial results as well as for internal planning and forecasting purposes. These non-GAAP measures should not be viewed as a substitute for the company's GAAP results.
- (b) This adjustment reflects the non-cash stock based compensation expense for restricted grants, stock bonuses, and stock options awarded to the company's employees.
